

INDIA EDUCATION FUND

PROVIDING THE SEEDS FOR GROWTH

without education, the poorest of the poor will continue to be victims of multi-generational poverty

India, the world's second most populous country, is home to more than 322 million adults who can neither read nor write. Poverty, caste and gender disparities, and an inadequate educational infrastructure prevent millions of children each year from receiving an adequate education.

Most, if not all, of these uneducated children come from the underprivileged and marginalized segments of India's population. Without adequate education, these children will forever be excluded from meaningful participation in their society.

Without education, they are unlikely to acquire the basic knowledge, training, or skills that will allow them to effectively compete in the global marketplace and seek new opportunities for self sufficiency and advancement. They will continue to be victims of multi-generational poverty.

The India Education Fund of The Dallas Foundation is determined to change this. We want to make a difference. This is our vision. This is our mission. This is why we exist.

To learn more about India Education Fund of The Dallas Foundation, including how we help fight multi-generational poverty and how you can become involved, please scan the codes to the right or visit our website at:
